

Wednesday - 12 April 1950

1. Spoke to Walter Myers, Assistant Postmaster General, and Nelson Wentzel on the legality of the comic "Donovan of Central Intelligence" published by Avon publications of New York, which states that "this story is based on the files of Central Intelligence". In view of the fact that an application is pending for Second Class mailing privileges, the Department will study their application with the thought of refusing the application if the publication is continued with this misrepresentation.

2. Arranged at Andrews Field for speakers from the Air Weather Service and MATS Intelligence for CIA Air Reserve Unit.
